

CHLOÉ NEWELL

Curriculum & Learning Designer | ELA & Math | K-6 Digital Learning Systems | Edtech Product Designer

Smyrna, GA (Open to Relocation) • 470-344-4983 • chloenewell.io@gmail.com
[linkedin.com/in/chloenewell](https://www.linkedin.com/in/chloenewell) • Portfolio: chloenewell.github.io

PROFESSIONAL SUMMARY

Curriculum and learning designer with 13+ years in K-12 education, spanning direct classroom instruction in both ELA and math, grades 3-6, plus certified small-group reading intervention and STEM program leadership. Deep expertise in learning progressions, misconception-based scaffolded instruction, and cognitive load theory, paired with hands-on experience architecting digital content systems within a large-scale LMS ecosystem and an enterprise software environment (PowerPlan). Independently designs and publishes standards-aligned instructional content across multiple subject areas for direct sale, validating instructional quality outside institutional distribution. AI-native practitioner integrating generative tools into content production workflows to scale quality and output. Translates classroom-proven pedagogy into interactive, product-ready digital learning experiences across content domains.

CORE COMPETENCIES & TECHNOLOGIES

Curriculum Design (ELA & Math, Grades 3-6) • Science of Reading & Numeracy Development • Learning Progressions & Scaffolded Instruction • Misconception Analysis & Corrective Pathways • Cognitive Load Theory & Mastery Learning • Formative & Summative Assessment Design • Digital Content Production for Interactive Learning • AI-Integrated Content Workflows (Claude, ChatGPT) • LMS Architecture & Administration (Schoology, CTLIS) • STEM Program Development • Cross-Functional Collaboration • ADDIE & SAM Iterative Design • Independent Content Development (Teachers Pay Teachers)

PROFESSIONAL EXPERIENCE

Learning Experience Designer & Educator | Cobb County School District

Oct 2016 – Present

- Delivered direct classroom instruction in ELA and math and certified small-group reading intervention to students in grades K-6, including targeted pull-out support for grades 3-6, applying learning-science principles and scaffolded instructional design to close identified gaps.
- Designed and built 100+ interactive digital ELA, math, and cross-curricular assets deployed through the district LMS, applying learning progressions and misconception-based sequencing for 500+ end users.
- Led a platform adoption initiative that tripled active user engagement, directly improving the data quality and reliability of program reporting.
- Integrated generative AI tools into weekly content production workflows, cutting turnaround time by 50% while maintaining standards alignment and instructional quality, consistently outperforming team benchmarks on equivalent deliverables.
- Engineered an Excel-based workflow automation tool that simultaneously reduced internal task-completion time and outreach turnaround time by 50%, adopted organization-wide.
- Selected as inaugural data analyst for a new behavioral analytics initiative, tracking 300+ active student profiles and briefing a 10-member leadership committee monthly on trend findings that informed targeted interventions.
- Architected modular LMS course environments applying UX/UI best practices, including intentional navigation models and structured, accessible content sequencing for scalable content libraries.
- Earned school-level STEM certification and led a Girls Who Code club for grades 3-5, extending instructional design practice into coding, computational thinking, and STEM enrichment.

Instructional Design Consultant | Freelance

Feb 2016 – Jul 2018

- Designed curriculum and digital learning tools across all subject areas for 3 K-12 district clients, achieving 100% adoption of new resources through structured needs assessments and end-to-end stakeholder rollout.
- Produced 50+ scalable curriculum resources including pacing guides and standards-aligned units, and delivered 10+ professional learning sessions upskilling 40+ practitioners across multiple sites.

Operations Specialist | PowerPlan (Contract)

Summers 2018 – 2019

- Engineered an 80+ page operational handbook and training manual inside an enterprise software company, standardizing onboarding and building a scalable, repeatable reference system adopted across departments; direct exposure to cross-departmental product and operations workflows.

Curriculum Design Lead & Team Lead | Ivy Prep Academy for Girls

Aug 2013 – Feb 2016

- Redesigned core ELA curriculum to target identified performance gaps, improving standardized assessment outcomes to a 97% pass rate.
- Directed cross-team curriculum planning, pacing, and instructional alignment for a 5-person team; promoted to department leadership within one year based on program outcomes.

Independent Content Developer | Teachers Pay Teachers

Ongoing

- Designed and published standards-aligned instructional content across multiple subject areas — including ELA, math, and social studies — for independent, direct-to-educator sale, validating content quality and market demand entirely outside institutional distribution channels.

Summer Program Director | Pace Academy

May 2011 – Jul 2013

- Supervised and coached a 5-person staff through structured performance feedback while designing and facilitating onboarding and training for new and returning team members.

Research & Assessment Analyst | University of West Georgia

Oct 2010 – Dec 2012

- Evaluated program effectiveness, including a STEM program, synthesizing 50+ monthly data sets into stakeholder-ready visualizations, and designed standardized reporting templates that reduced data processing time by 30%.

EDUCATION & CERTIFICATIONS

Bachelor of Science (B.S.) in Education — University of West Georgia, Carrollton, GA (2012)

Science of Reading Certificate — Georgia Department of Education (GaDOE), October 2024

Implementing Agency PYP Certificate — International Baccalaureate, November 2020

Google Data Analytics Professional Certificate — Google / Coursera, March 2025

Google UX Design Professional Coursework — Google / Coursera, in progress (3 of 8 courses)

TECHNICAL SKILLS

Excel (Advanced) • SQL • Python (pandas) • Tableau • LMS Administration (Schoology, CTLS) • SharePoint • Articulate Rise • Articulate Storyline (Branching Scenarios) • AI Tools — Claude & ChatGPT (multi-year hands-on practitioner)
