

PROOF OF WORK / 2026

CHLOÉ NEWELL

- **LEARNING TECHNOLOGY**
- **ENABLEMENT OPERATIONS**
- **DATA & ANALYTICS**

Building better learning experiences
through technology and data.

PowerPlan

Operational Knowledge System

CHALLENGE

Critical operational knowledge was scattered across departments, emails, and informal employee handoffs.

SOLUTION

Expanded and transformed an incomplete collection of procedures into an 80+ page operational knowledge system.

IMPACT

- **Single source of truth**
- **Standardized onboarding workflows**
- **Reduced dependency on experienced staff**

CAPABILITIES

Knowledge Management

Technical Documentation

Process Improvement

Operational Enablement

80+

Pages

Single Source of Truth

A complete operational knowledge system, structured so any team can find the answer without asking a person.

Operational Infrastructure: Transformed ad hoc knowledge into a scalable, repeatable reference system covering 9 operational domains.

Behavioral Analytics

Data Initiative & Adoption Program

CHALLENGE

Leadership lacked reliable reporting because platform adoption was low and data quality was inconsistent.

SOLUTION

Designed and delivered targeted user training to drive platform adoption and establish a repeatable analytics reporting cycle.

IMPACT

- 3x adoption increase
- Data quality improved significantly
- Monthly executive reporting established

CAPABILITIES

Knowledge Management

Technical Documentation

Process Improvement

Operational Enablement

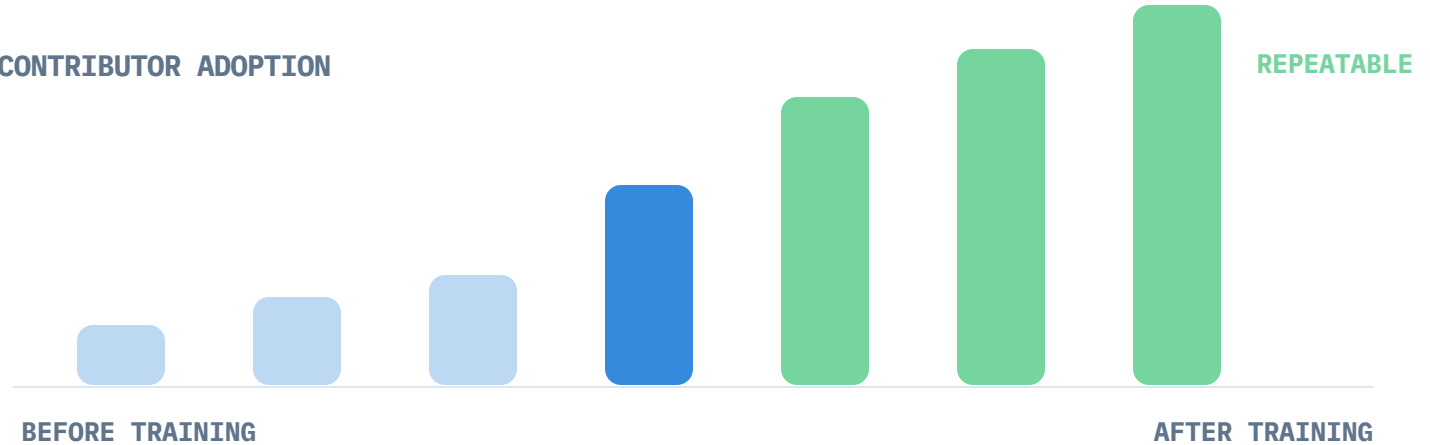

Adoption that improves reporting confidence

3x

**ADOPTION
INCREASE**

Training moved contribution from a handful of users to a consistent reporting base.
